Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: It appears that the proposed amendment "that the target maximum fixed value and the target maximum virtual value dynamically alterable by the system administrator and used to dynamically vary the amount of fixed storage and the amount of virtual storage based on comparison with these target values" would overcome the level of usage used by Campbell to change the state of the buffer from fixed to pageable and vice versa

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
